Manhattan Solid Waste
Advisory Board

Since 1990, Wendy E. Brawer has designed resource-efficient services and products that promote sustainable living in conjunction with Green Map System and Modern World Design.

- Partnerships include Local Spokes - Lower East Side/Chinatown NYC Bicycling Coalition, Sustainable Jersey, NYC Climate Coalition and UVic Community Mapping Collaboratory.
- Services designed include a comprehensive Environmental Program, its mobile eco-info center, campaigns and events for 1,700 unit housing complex's youth and adult residents, management and staff. Client: Manhattan Plaza.
- Products designed include the Times Square Deposit Banks, "self-emptying" recycling bins that provided dignity to redeemers of deposit containers as well as waste reduction and traffic calming campaigns. Client: Times Square BID.
- Consulting on impact reduction of products and projects in development, exhibits, marketing and waste-related campaigns and events for architects, agencies and marketing companies. Client list available.
- SolSpherica is Liberty Science Center's interactive 1KW solar energy exhibit, co-created by Wendy and Amelia Amon, winners of Art & Science Collaboration's competition.

Green Map NYC

charts NYC's environmentally significant places and projects. First published in 1992, Wendy has produced several city-wide editions, including the interactive Open Green Maps of NYC, first published in 2009. In 2006 she published the Powerful edition, focused on energy and climate change. Thematic editions includes Composting in Manhattan Green Map (3 editions) and LoMap, the youth-authored Lower Manhattan Green Map (2 editions). As seen at GreenAppleMap.org, Wendy has produced numerous public events including cycling tours, workshops, exhibitions and more. The Green Apple Map project inspired the global Green Map System, and continues to offer inspiring models.

Green Map® System

has engaged over 800 communities in 64 countries in charting a sustainable future. A not-for-profit 501c3 organization since 2000, Wendy has been the founding director of Green Map since 1995 and is actively involved in creative, organizational, PR, tool, media and website development, including the Open Green Map social mapping platform and mobile website. Green Map System promotes community sustainability, citizen participation and local leadership. As seen at GreenMap.org, 500 unique locally-created Green Maps of the natural and cultural environment have been published, and 275 Open Green Maps are online, all using collaboratively designed Green Map Icons, adaptable mapmaking processes and tools, related books, exhibitions, trainings and more.
